Great Basin Incident Commander Conference Call Agenda 2015	
Date: 9/7	Note taker: G. Dingman
GB MAC/GACC Coordinator: Agenda/Incident Commander Discussion Points: <u>Summarize the following in 4 min or less:</u> <ul style="list-style-type: none"> • Fire Size / % contained / # of people / Cost to date • Significant changes since the last 209 • BRIEF fire synopsis /Critical Incident Information (use Directional vs DIVS's) • Political Issues / Community Meetings • Closures / Evacuations / Public Safety Issues • Major Safety Concerns / Injuries / Accidents • Critical Resource Needs • Resources Available to Reassign/Share/Demob 	
Predictive Services:	<p>Another weather disturbance will move across the northern part of the Great Basin. However, this is a relatively weak system and will have little impact. Gusty winds will develop across portions of western Wyoming combined with low RHs, critical fire weather conditions may develop for that area.</p> <p>High pressure will begin to build across the Great Basin this week leading to a warming, drying trend. Temperatures will be 5 to 10 degrees above normal by midweek, with the warmest conditions across the western half of the area. Wind speeds will trend downwards through the week as high pressure builds.</p>
GBCC Update:	<p>11 fire / 15 acres / 4 new acres on the large fires</p> <p>Competition for resources has decreased and initial attack resources have become for readily available.</p>
